

ecoraster®

SAVING THE EARTH, ONE GOLF COURSE AT A TIME.

ECORASTER

ecoraster.us

The premier grass turf protection & stabilization system, from the original German-engineered ecoraster.

Advantages:

- » Permanent sedimentation and runoff prevention.
- » Supports healthy, verdant grass growth.
- » Prevents soil or surface migration.
- » Prevents compaction, or damage to root zones, due to pedestrian or vehicular traffic.
- » Lightweight, flexible + durable = low impact design.
- » Fracture-resistant (not HDPE-based)
- » Stable from -58° to +194° F || 100% Recycled Content.
- » German-engineered to support public roadway traffic.
